

KEF R Series 7.1

KEF'S R SERIES borrows technology from the brand's Blade flagship, and this resulting 7.1 lineup is truly worthy of its nickname, 'Junior Reference'. Revamped UniQ drivers are flanked by 8in low-frequency cones on the R900 floorstanders, delivering an immense front soundstage, while the combination of traditional two-way cabinets and dipole speakers for the rear and surround channels equates to wraparound audio with power and precision – all backed up by the visceral 500W subwoofer.

PRODUCT DETAILS

TYPE Floorstanding 7.1 speaker array

PRICE £6,500

WEIGHT 29.5kg
